

CV Danielle Huls

Danielle Huls is an architect and urban designer. Since 2013 she runs the practice KettingHuls that she set up with Monica Ketting. The practice works on projects that vary in scale, dimension and program; ranging from objects to architecture to urban planning. KettingHuls is an open-minded practice, has an eye for the lived-in environment and seeks beauty in the everyday, with an interest in the concept of slow living.

At the moment Kettinghuls is working on

- Residential Buildings with 110 Dwellings and Commercial Spaces around a Marina, Almere, the Netherlands
- A Working Building for the Creative Industry, 10.000 m2, Ouder-Amstel, the Netherlands
- Extension and renovation of Elementary School De Zevensprong, Best, the Netherlands
- Research by design 'Parking Two-Wheeled Vehicles in High-Density Urban Blocks'

Danielle is a guest lecturer at the Technical University in Delft, the Academy of Architecture in Amsterdam and Academy of Architecture Groningen.

Danielle has won several competitions. Among the award winning projects are Atriumterrein, Urban plan for a Sports Complex, Kerkrade, the Netherlands (2016); Watersley Sports & Talent Park, Masterplan for a Residential Campus for Sport-talents, Sittard, the Netherlands (2018) and the nomination for Public Building of the Year, Architectenweb Awards 2020 with Restobar Mama, Maastricht, the Netherlands.

She has given several lectures on her work of which recently an interview with Michiel van Raaij, chief editor of the Dutch biggest online platform, to listen via Architectenweb Podcast.

Work

Danielle has worked as an architect in Amsterdam since 1997. At first as architect-director at the Architectengroep later in her own office Danielle Huls Architect. She has worked on a wide range of assignments and has seen to a number of large housing projects built.

In 2007 she started work at Bureau B+B (Urban Development and Landscape Architecture) as an urban designer and joined the board of directors two years later. At B+B, Danielle worked on urban plans and landscape designs in the Netherlands, Belgium, Denmark and China and has been involved with the redevelopment of brownfield sites as well as with the design of new suburbs.

Since 2019 she is a member of Advisory Committee, a diverse group of professionals from the world of architecture and related sectors, who give Arcam (the architecture centre of Amsterdam) input into the composition of the program and help think about the content of the program.

Education

Danielle qualified as an architect at the Technical University in Delft. Her thesis project was awarded with a honourable mention. She then completed the Diploma School at the Architectural Association in London (with a scholarship from Fonds voor Beeldende kunsten).
