

Formalizing Observance

Time is impassive... the ordering
And the clocks! ... time just is

Clocks don't just measure time. They
communicate messages about temporality
that go beyond the number representing the
present instant

APRIL MAY JUNE 2022

I like the idea that I could come upon
something by chance, but it wasn't really by
chance, because my unconscious had led me
to do something that might actually mean
something to me & get me out of the mess I
was in.

Fallen into the spiderweb, to be eaten later.
The spiderweb, but where is the spider?
Gone away.
