AIR – ARTIST IN RESIDENCE Niederösterreich, April 2023

My residency in Krems has been fantastic, great welcoming and Krems is such a nice place. Close to Danube and the beautiful surroundings, with nature and the hills with all the Wineries as a backdrop.

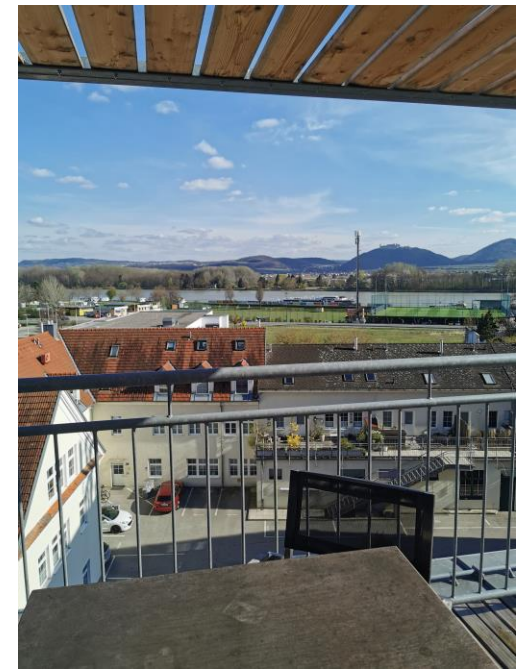

Although the city is quite small, you have museums and galleries and everything you need near by. The AIR- studios and the office is part of the Kunstmeile Krems, wich means you have walking distance to experience art and culture (within 1,6 kilometers) from the studio appartement. I found that very inspiring, to just go outside and have the opportunity to take part of Krems culture life.

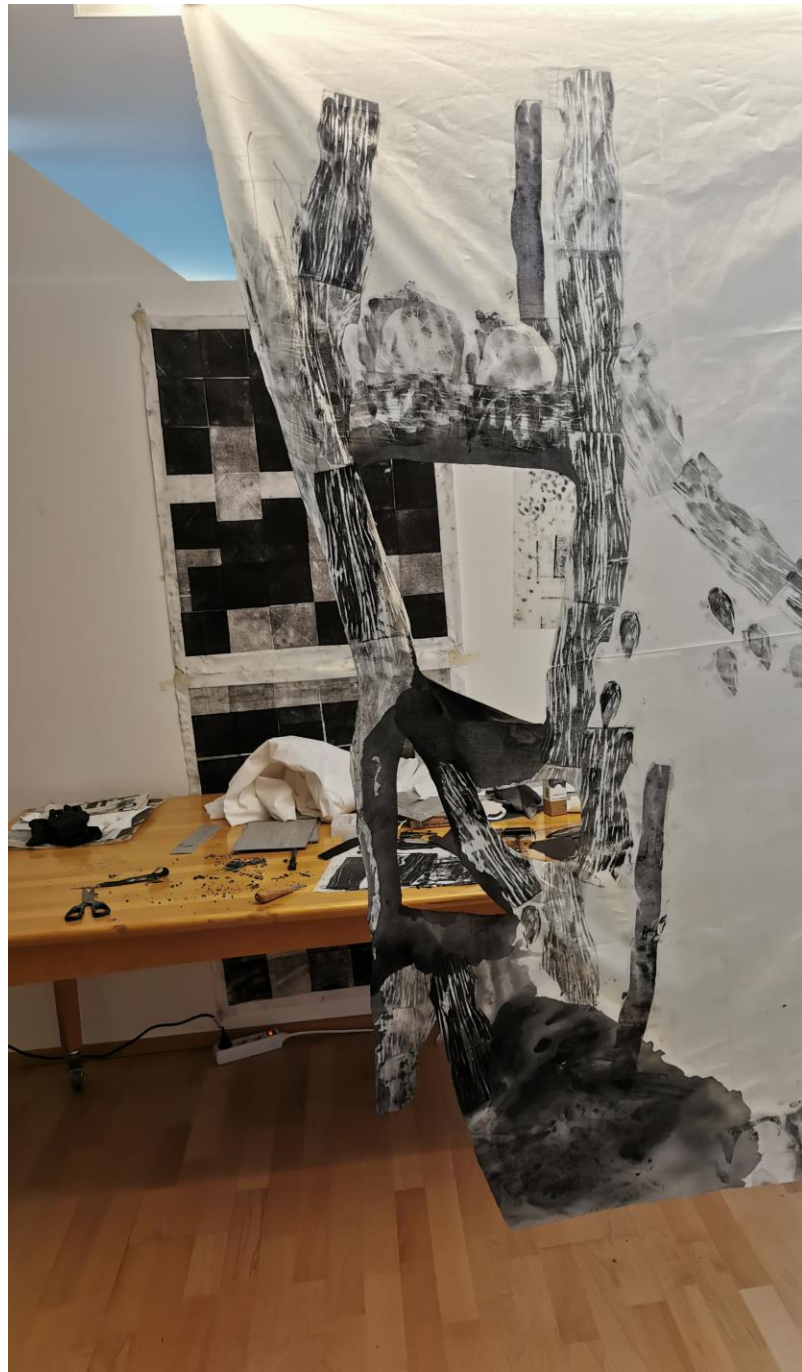

The only thing I missed at the residency was some kind of art supplies store near by in Krems.

The studio/workspace worked really well for me, big open space to work in and everything you needed in the apartment.

I appreciated that the residency was so free to managed your own time, with your own work and to visit museums and galleries at your own pace.

During the residency I worked with printmaking/drawing and collage on textile, I was limited by the materials that I could bring with me so I even though I´m used to work in bigger scales and with other material as plywood and MDF for printing, I realized that I can work with other materials and printing by hand, such as linocut and drawing.

Exhibitions and museums I visited during my residence:

LANDESGALERIE NIEDERÖSTERREICH (Krems)

- Angela Glajcar, “Traumfänger”
- Alpine Seilschaften
- Thomas Reinhold
